

**FIRST-TIME SETUP** Everything in step 1, plus a few things you only do once.**GET CONNECTED**

- ☐ Install the **SwimClips** app (App Store) ☐ Hub plugged in, cameras connected ☐ iPad WiFi → join **SwimClips**

Then, once:

CAMERAS

- ☐ **Live** tab → **Scan for cameras**
- ☐ New camera pop-ups: tap **OK** on each
- ☐ Rename: **Live** tab → down arrow in camera corner → tap name (Start, Turn, Side, etc.)

ATHLETES

- ☐ **Browse** → person + icon (top right)
- ☐ Name, email, **Enter**, repeat. Bulk: paste from your roster CSV/Excel.
- ! **One athlete per line, or the list becomes one long name**
- ! **Adds to the folder shown bottom right. All Athletes = unassigned.**

SHARING

- ☐ **Settings** → Hub's WiFi connection → your network
- ☐ **Cloud** tab → free SwimClips Cloud account
- ! **No hub internet = no Cloud sharing or eo import. Recording still works.**

1 EVERY SESSION**HARDWARE**

- ☐ Hub into a wall outlet
- ☐ Lens caps off, cameras into hub ports
- ☐ Cap unused ports
- ! **Cable ends and open ports can't get wet**
- Hub: splash-safe with lid closed, never submerge
- Cameras and cables are waterproof

CONNECT

- ☐ iPad WiFi → join **SwimClips**
- ☐ **Live** tab: all cameras showing? If not, tap **Scan for cameras**
- ☐ Moved cameras? Rename them
- ! **iPad not on SwimClips WiFi = no cameras, no video. Check this first when something's missing.**

PACK UP

- ☐ Lens caps on (lenses scratch)
- ☐ Ports capped, lid closed

> 2 RECORD**LIVE TAB, BOTTOM RIGHT**

- **Left:** team/group
- **Middle:** athlete
- **Right:** record start/stop

EVERY REP

- Group → athlete → record → stop
- No cameras tapped = all record
- Tap cameras to record only those
- ! **No athlete selected = "No athlete" folder. Assign it later.**

- Open = records with hub cameras
- Red circle = iPad camera only

TIVO MODE

- Tap 1–2 cameras → expand icon (bottom left) → set delay
- Older app: **Full Screen** button

MULTIPLE COACHES

- Several iPads, one hub – each runs its own group

> 3 REVIEW & SHARE**FIND IT**

- Replay icon (top right, Live) = last recording
- **Browse** → Latest collections or athlete folder

PLAYER

- -1 / +1 = one frame
- Scrub bar has momentum – slow down for detail
- **Collection** = all angles, voiceovers, eo graphs from one recording

EXPORT ICON

- **SwimClips Cloud:** best for athletes. Emails a link; they sign up free.
- ! **Cloud needs hub internet and your login**
- **Photo library:** AirDrop when deck WiFi is bad. Photos → Recently Saved.
- **Videos as files:** Files / iCloud
- **Collection ZIP:** every angle synced, works offline. Share via iCloud folder.
